Compare My Move Grows Team By Almost 50%

Cardiff-based comparison website for UK home movers has expanded its team by almost 50% within the last year

The company has strengthened each team with eight new additions throughout 2022, with future growth planned for the coming months. This brings the total number of employees in the company to 21 across 6 departments - a far cry from the small team which started everything back in 2012.

Compare My Move welcomed Nicola Ryan and Ashleigh Williams as content writers and Liam Martin as SEO Manager on the digital team.

Nathan Burnell has joined the company as a Partner Support Executive and Dave Clarke and Martyn Mayor have joined as New Business Partner Executives. David Griffiths joined as PHP Developer on the development team and Lucas Lozzi will join the company as Paid Search Manager.

Compare My Move started out with a service matching home movers with local removal companies and has since expanded to offer surveying, conveyancing and storage.

The company now boasts over 500 partners across the services they offer, with Q4 2022 already seeing an increase in new partners. With new services on the horizon, the company doesn't appear to be slowing down anytime soon.

"It's been great to see the company grow so quickly over the past year. Each new starter has been a valuable addition and we're already seeing vast improvements across the company.

It has been an exciting year for the company, and one of amazing growth. We look forward to what the future holds and an even stronger 2023."

Owner and Managing Director Dave Sayce

In addition to the new starters within the core team across the company, Compare My Move is also looking to grow its design team, which became its own department earlier this year.

The development team is also looking to expand, something which the company hopes to see in early 2023.
